ABOUT MYSELF

I have five years of practical programming experience, with a primary focus on JavaScript and its ecosystem. I also have general knowledge and experience with C, C++, Java, and C#, as well as strong TypeScript skills, acquired through a successfully completed specialized course. During my studies and afterwards, I developed several web projects – including a website inspired by Apple, built with React.js, a game purchasing platform developed with Angular, and a personal portfolio website that showcases my projects and skills in a modern and interactive way.

EDUCATION AND TRAINING

2023 – 2025
SOFTWARE ENGINEER WITH JAVASCRIPT Software University

Completed the professional “Software Engineer with JavaScript” program at SoftUni, covering the full web development cycle from fundamentals to real-world applications. The training included:

- JavaScript & TypeScript – in-depth knowledge of the language, DOM, REST APIs, and strong TypeScript skills from a specialized course.
- Front-End Development – building web interfaces with HTML, CSS, and React.
- Back-End Development – developing server-side applications with Node.js, Express, and Angular.

2022 – CURRENT Plovdiv, Bulgaria
COMPUTER SYSTEMS AND TECHNOLOGIES University of Food Technologies

- Mathematics, Physics, Programming, Discrete Structures, Signals & Systems, OOP, Microprocessors, Databases, Operating Systems, Networks.
- Embedded Systems, PLCs, Digital Signal Processing, Supercomputers, Specialized Foreign Language, Economics.
- Physical Education, Quality Control, Work Practices, Diploma Project.

2017 – 2022 Plovdiv, Bulgaria
HUMANITIES PROFILE (WITH INTENSIVE GERMAN) St. Patriarch Evtimiy High School

- Focused on Bulgarian language and literature, English, and German. Studied modules in written and spoken communication, grammar, literature, intercultural communication, and history.
